

# Tenda®

**Attention! The popular Tenda F9 Router is being replaced.** The Tenda F9 router has been a popular choice for many users, but now it's time to make way for its successor; The Tenda AC5 Router.

The Tenda F9 Router has served users well with its reliable performance and affordability. However, with the introduction of the Tenda AC5 router, users can now take advantage of enhanced Wi-Fi performance, advanced security features, and a user-friendly interface. The AC5 presents a significant upgrade for users seeking a faster and more secure networking experience without breaking the bank. If you're looking to future-proof your network and enjoy faster speeds and better coverage, it's time to bid farewell to the Tenda F9 and welcome the Tenda AC5 as your new networking companion.
